## Disaster Preparedness Training

Each of the four sessions is offered each day, July 20th - 23rd. The training sessions will be broken up in to two portions. In the mornings you'll be in the classroom while in the afternoons you'll get hands-on experience, putting into practice what you learned in the classroom.

International Disaster Response Management, Logistics, and Supply Chain Coordination

Instructors: Chris Schaff & Michael Rettig

Learn about what it takes to manage and coordinate groups following a disaster, how to evaluate logistical needs to deliver a well-thought through response.

Attendees need to bring: notebook & pen

Participant Capacity: 25

Wide Area Assessment: Disaster Surveyor

Instructor: Andy Olvera

Participants will have the opportunity to download a free assessment app to their device, where they will be able to upload critical information to a disaster coordinator to expedite communication of needs during a disaster.

Attendees need to bring: iPhone, Android, or pad/tablet. fully charged

Participant Capacity: 25

**Swift Water Rescue** 

Instructors: Larry Mullin & Dan Gajewski

Participants will learn how to evaluate rescue efforts that take place in areas of swift water. \*PFD will be provided to each student.

**Attendees need to bring:** a change of clothes, water shoes & a towel.

Participant Capacity: 16

WASH: Water Filtration and Desalination, Sanitation, and Hygiene

Instructors: Colin McCubbin & John Wright

Learn about water filtration, desalination, sanitation, and hygiene during a disaster.

**Attendees need to bring:** sun gear, a water bottle, a notebook & pen.

Participant Capacity: 25
